Comment: Tournament anglers bring alot of money to the area and take nothing with them all fish are returned alive) But this doesn't really change anything for them, Louisiana tournaments have been going by texas slots anyways. I just dont understand a large natural lake needing a slot like caddo. I heard rick clunn say that it is impossible to fish out a big natural lake. And I am incline to believe him. Look at Toledo Bend,,, it is supposed to be for the people and by the people. I dont know anyone who wants the slots.

I also would have liked to see Cross included in some changes. bass fisherman are very well known to catch and release. A 14" minimum would protect the population just fine. It would keep the bank fisherman from keeping everything they catch on minnows and basically satisfy most fisherman. I can guess what the college championship anglers thought about it. They probably dont want to ever come back.
